[redacted] will be travelling to U. S. on 4/18/65, as member of protective body for Italian Premier Aldo Moro, who will be visiting this country beginning April 19, 1965. By cable, 4/14/65, Legat, Rome, recommended, and we agree, that if [redacted] calls at Bureau during current trip, appropriate courtesies be extended.

[redacted] visited Bureau and was taken on a special tour of our facilities on 9/27/63. At that time, he was in Washington briefly to attend a conference on forensic medicine. He is a career law enforcement officer and has been most friendly with our Legat in Rome for a number of years. He is personally known to SA Mario Gregorio, former Legat in Rome now assigned in Liaison Section. Gregorio escorted [redacted] on the latter's 1963 visit with Bureau. [redacted] is not fluent in the English language. He is unable to carry on a conversation in English.

In the event [redacted] contacts Bureau during his present trip, we could take him on a more detailed tour of our facilities including the Identification Division. It is noted that when [redacted] visited Bureau in 1963, his time was limited and the tour of Bureau facilities had to be curtailed in order to fit in with [redacted] time. At that time, [redacted] indicated he would like to revisit Bureau for a more detailed tour including Identification Division. If time permits, we could also take him to lunch as our guest.

ACTION:

If approved, Liaison Section will handle any request for courtesies by [redacted] as outlined above. APR 20 1965

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 11-6-90 BY SP1AG/SC

On April 4, 1978, a source whose reliability is unknown, advised he has had the gift of Extra Sensory Perception (ESP) since childhood and has been accurate in his perceptions a majority of the time.

The source advised he has been following the abduction of Aldo Moro, Rome, Italy, on television since the incident first occurred during mid March, 1978. The source has had visions concerning this matter with regard to his ESP and the following details have emerged:

From the place of abduction to Moro's current location is no less than 38 miles or kilometers to no more than 42 to 46 miles or kilometers. Moro is located in Italy somewhere to the north of Rome. The source can visualize a seashore and a separate body of water which could be a lake or river that is a few miles or kilometers east of the seashore. It is very sunny in that location. To the east of ~~the body of~~ the body of water, possibly two to four miles or kilometers, there is a mountain where a very narrow road is located. The road has a blue color like wet cement and is made of some type of stone.

The source can visualize a cave in the mountain which may or may not be seen from the roadway and inside the cave are two holes which are possibly wells. There is a large room in or near the cave that is being built or repaired. The source visualizes very little sun in the vicinity of the cave and it is located in a very cold location. The source can visualize Moro in or near one of the wells and he has an injury or mark on the top of his head. The source cannot tell whether or not Moro is alive.

b3
b7E

ALDO MORO
ROME, ITALY

The source further advised Moro was transported in a truck with a large square shaped wooden covering like a van, but the body of the truck was made of wood rather than metal. The source also visualizes a bridge near an area where seaplanes are taking off and landing on water and the source connects this with the method used to transport Moro from the place of abduction.

The source has no information concerning the abductors and the source noted he has never been to Italy nor does he have any known acquaintances in Italy. The source further advised he has not consulted a map of Italy in connection with his ESP observations.
